

Our Major Clients

Our Systems, products and Services are delivered worldwide to a large base of regular customers both at home and abroad. Some of our regular customers are:

Off-Shore

Petrochemical

Power Plant / Generation

Marine

Fire Protection & Safety Specialist

Oakwell Engineering International Pte Ltd was set up in 1992, with the intent of providing a Total Concept in Engineering Solutions for Engineering Systems.

We provide engineering system solutions, from the conceptual stage to the design and fabrication of the specialised system packages. With our reliable team of experienced engineers and designers, we are ready to provide technical services using the latest Computer Aided Design applications as well as supporting design software.

OAKWELL ENGINEERING INTERNATIONAL PTE LTD

The Preferred Partner

Remote Control Monitors

Gas Based Fire Fighting System

Twin Agent (Dry Chemical/Foam) Skid

FPS - Fire Protection & Safety Business Unit is a part of Oakwell Engineering International Pte Ltd (OEI).

OEI was established and incorporated in Singapore in the year 1992. Today, OEI is one of the leading company in the field of designing, and supplying a total fire protection solution to our ever growing customer base.

QUALITY STATEMENT

We strive to be the **Preferred Partner** for our customers, vendors and colleagues. To do this, we shall consciously promote and maintain **Quality Relationship**.

Quality Relationship means providing quality products & services and evoking trust & confidence to achieve **Total Satisfaction**.

VISION

To be the **Preferred Partner** to our customers, suppliers, shareholders, community and staff.

MISSION

Be Customer-focused, Innovative and Providing Quality Engineering Solutions & Services through People, Partnership and Performance.

CORE VALUES

OWNERSHIP

Account for what we do and deliver what we promise

INTEGRITY

Exercise honesty in our work.

LEARNING

Pursue Continuous learning to excel

TEAMWORK

Communicate and work as a team

EMPOWERMENT

Empower to perform

CREATIVITY

Innovate and develop new ideas

Foam System

Pneumatic Deluge Valve/ Fusible Plug Charging Panel

Foam Hose Reel Station

Passive Fire Protection Systems

Radiant Heat Shields

At Oakwell, we are strongly committed to ensure product quality, adherence and conformance to client's specifications and code requirement.

Oakwell operates with ISO 9001:2008 procedures for products and services related to design, fabrication and service support of skid mounted and modular equipment packages.

Oakwell - FPS Unit

The company has also gained good reputation as a Fire Protection Specialist in the international market, by leveraging on its Business Acumen, Partnership and Technology.

Our ability to be customer-focused has helped us to offer customized solutions with a strong emphasis on quality, reliability and value.

We not only ensure compliance to local / international rules and regulations but also ensure that our design caters to factors such as ease of operation and robustness.

OEI focus on fire protection solutions for the:

- Off-shore Fixed Production Platforms
- Offshore Floating Production Units
- Petrochemical Plants
- Onshore Oil and Gas Production Plants
- Marine / Ship Industry, and
- Power Plants

Regionally recognized as one of leading fire protection and safety specialist, we specialize in the design and supply of fire protection systems, which include:-

- Deluge System
- Pneumatic Deluge Valve Control Panels
- Fusible Loop Charging Panels
- Gas Systems (Novec 1230, FM200, Inergen, Co2)
- Foam Systems
- Fire Pumps
- Water Mist Systems
- Helideck Fire Protection Systems
- Twin Agent Skids / Systems
- Dry Chemical Skids / Systems
- Passive Fire Protection Systems
- Radiant Heat Shields
- Fire Pump Relief Valves
- Air Release Valves for Fire Mains
- Pressure Control Valves for Fire Mains
- Foam Hose Reel Stations
- Fire Hydrants and Nozzles
- Remote Control Monitors and Fixed Monitors
- Fire Detection and Alarm Systems
- Gas Detection Systems
- Safety Equipment
- FiFi Systems

We also provide Offshore / Onshore site survey, modification, installation, testing and commissioning services.

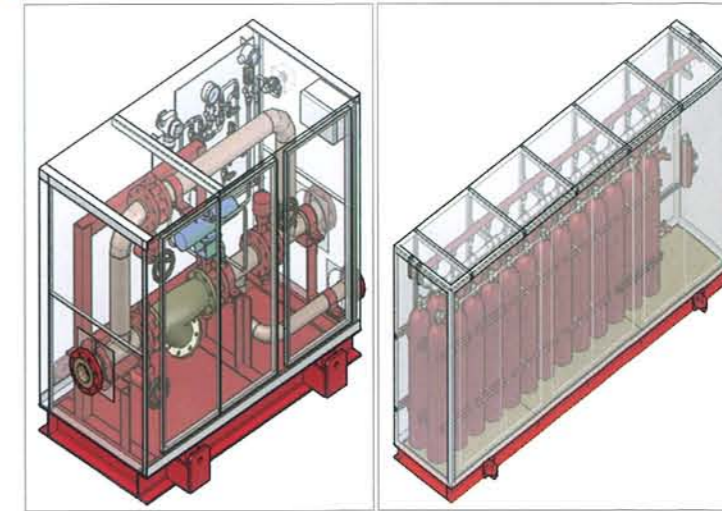

Design Software

Our Design and Fabrication Expertise

Deluge Valve Skid 3-D Modelling

Gas System 3-D Modelling

ISO 9001:2008

Fabrication & Manufacturing Facility

We represent the following product & manufactures:

Fire Pump System

Fire & Gas Detection and Alarm Systems

Safety Equipment
